

13 June 1983

MEMORANDUM FOR: Deputy Director for Intelligence
FROM: Director of Central Intelligence
SUBJECT: Goals and Priorities

Shultz wants to have a go-around with us on these subjects with primary focus on dealing with the Soviets, i.e. maintaining a willingness to talk and negotiate which he views as necessary to maintain domestic and European support while at the same time being specific and tough about the issues on which we really need the Soviets to move for these talks to go anywhere. Will you think about this while I'm away and give me your thoughts when I return.

William J. Casey
